Throw a Party

You and your group are going to plan a party. Discuss the following questions to help you organize your ideas:

1. What’s the occasion? (What’s the reason for your party? For example: The last day of school, John’s birthday, Halloween, National Donut Day…)

2. What’s the theme of your party? (For example: A costume party, a bubble party, an extreme sports party, a hip hop dance party…)

3. What kind of music, entertainment, and decorations will you have?

4. What foods and drinks will you serve?

5. Where will the party be located? For example: the beach, your school, a really high rooftop…)

6. How many people will be invited?

After you finish planning, prepare to present and invite the rest of your classmates to your party.
